**DETAILED ACTION**

1. Receipt is acknowledged of amendments filed on 7/28/2005.
2. Claims 22-33,36,38,40,41,43-52 and 56-65 are presented for examination.

***Allowable Subject Matter***

3. Claims 22-33,36,38,40,41,43-52 and 56-65 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art of record, Klein et al., taken alone or in combination with any other references fails to teach a planar area that moves parallel to a first direction and below a web, wherein the web moves substantially independently of the planar area and the web lies upon the planar area; a second applicator and means of placing a second label onto the label located on the portion of the web so as to attach the second label to the (prior) label, and means of controlling the speed while the second label is being pressed onto the label located on the portion of the web, and means controlling the linear speed of the web along the first direction relative to the linear speed of the planar portion parallel to the first direction so as to diminish the risk that the web becomes skewed during the pressing. These limitations in conjunction with other limitations in the claimed invention were not shown by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
